ESTABLISHED IN 1992...

The firm has continued to grow to its present size of 8 directors, assisted and supported by our experienced staff

All of our clients have their own client relationship director who takes responsibility for understanding their business and individual needs. The director selects appropriate members of the team to work with each client to ensure their needs are met and that each client receives a consistently high quality service.

In addition to traditional accountancy services we offer focused business and tax strategies, together with profit improvement planning to help clients fulfill their business and personal goals.

But don't just take our word for it...

I always receive a speedy response to any queries I have. I look on Magee Gammon as a great partner to my business and I have happily recommended their services to friends and family on a number of occasions.

We decided to move from our previous accountant because of the lack of communication. When we met the team at Magee Gammon they portrayed a proactive approach - one year on and we are extremely pleased with our decision to move.

Regulated by the Institute of Chartered Accountants (ICAEW) means that we operate within their Code of Conduct, approved by banks and government bodies, and are committed to keeping up with changes in legislation.

CASE STUDY

THE GOLDEN BOOT SHOE SHOP

The **Golden Boot Shoe shop** was established by William Randall in 1790 and is nestled in Gabriels Hill a quaint pedestrianised shopping area in Maidstone, Kent.

The Golden Boot is truly unique and is the longest running, family owned and independent shoe shop in the UK. It offers an in-store personal shoe shopping experience in each of the departments as well as an online shop. It is worthy of its reputation of quality, passion and trust which attracts customers from all over the world.

How we helped...

The team at Magee Gammon, headed up by director Antony Tutt and associate director Andy Vanburen worked closely with Managing Director Edward Martin — (William Randall's Great, Great, Great, Great Grandson) to advise and meet his needs for this truly bespoke business to continue to thrive.

As well as traditional compliance work Magee Gammon were able to discuss and provide value adding services including tax planning overviews, aligned with strategic input to identify future opportunities and plan accordingly.

Andy Vanburen commented "With Ed's passion, innovation and ethos it is easy to understand how the business is the longest running independent shoe shop in the UK and how partnering with Magee Gammon could assist in helping to achieve its future goals. It's not every day you get to work with such an established business,"

the client said..
